

MARINA DEL REY 18-INCH WATERLINE REPLACEMENT PHASE IIIB TEMPORARY BICYCLE LANE DETOUR PLAN

The Los Angeles County Department of Public Works, on behalf of the Marina Del Rey Water System, has awarded a contract to Minco Construction to complete the Marina Del Rey 18-Inch Waterline Replacement Phase IIIB project, expected to begin December 2014 and end in August 2015. This project will include both vehicular and bicycle detours throughout the duration of construction. Construction hours will be from 8:00 am – 5:00 pm Monday through Friday.

For cyclist safety, the portion of the Marvin Braude bike path located along Fiji Way will be rerouted throughout construction. Cyclists will be directed to cross the intersection of Admiralty Way and Fiji Way to use temporary bike path lanes located along the outer northbound lane of Fiji Way, and the detour will end at the terminus of Fiji Way. Please note that the shared bike lane will use barricades to separate the bidirectional flow of cyclists. Signage will be posted to indicate all closures and detours. See images below for details regarding the detour.

For any questions or concerns, please contact Project Manager Nima Parsa at (626) 300-3319 or nparsa@dpw.lacounty.gov
